Spectral GraphSAGE / fixed validation cuts
Reconstructed selection / MC truth
BM@N HGND simulation; DCM reused test988976
No b selection (b unavailable)
Count efficiency (dimensionless)
Native MC cluster target (GeV)
Mean ± sample SD, 3 seeds
Residuals on all MC-positive clusters
Native max-hit energy; no track matching
Training variation only; no source uncertainty
Mean energy residual (GeV)
Native MC cluster target (GeV)
